## LEGEND

MAP INFORMATION AS OF 1971  
On this map a line is generally considered as being 8.12 feet (2.5.3.6 meters) in width  
EN ESTE MAPA UNA LÍNEA TIENE GENERALMENTE UNA ANCHURA DE 8.12 PIES (2.5.3.6 METROS)

## SIGNOS CONVENCIONALES

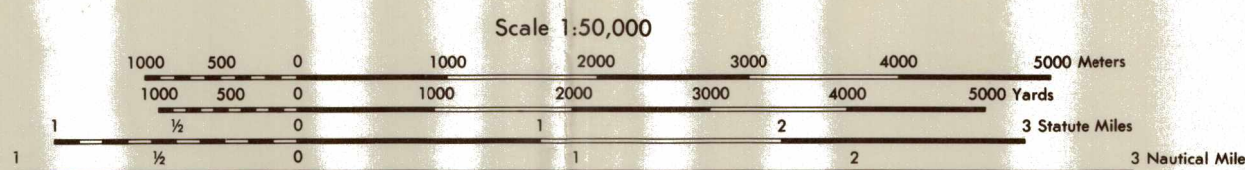

INFORMACIÓN HASTA 1971

| ROADS                                                       | CAMINOS                                                 |
|-------------------------------------------------------------|---------------------------------------------------------|
| Dual highway                                                | Autopista                                               |
| All weather, hard surface, two or more lanes wide           | Para todo tiempo, carretera pavimentada, dos o más vías |
| All weather, loose or light surface, two or more lanes wide | Para todo tiempo, carretera enjorreada, dos o más vías  |
| All weather, hard surface, one lane wide                    | Para todo tiempo, carretera pavimentada, una vía        |
| All weather, loose or light surface                         | Para todo tiempo, carretera enjorreada                  |
| Fair or dry weather, loose surface                          | Camino transitable en verano                            |
| Cart track                                                  | Camino de herradura                                     |
| Bridge                                                      | Puente                                                  |
| Route markers                                               | Señales de ruta                                         |
| National, Secondary                                         | Nacional; Secundaria                                    |
| Railroad, standard gauge, single track, 1.067m (3.5')       | Ferrocarril, vía normal, vía única, 1.067m (3.5')       |
| Built-up area                                               | Área construida                                         |
| BOUNDARIES                                                  | LÍMITES                                                 |
| International; Boundary marker                              | Internacional; Mojón limítrofe                          |
| First-order administrative division                         | Departamento                                            |

|                                                |                                                        |
|------------------------------------------------|--------------------------------------------------------|
| Power transmission line                        | Línea de transmisión                                   |
| Fence; Wall                                    | Cerca; Muro                                            |
| Building; Church                               | Edificio; Iglesia                                      |
| School; Cemetery                               | Escuela; Cementerio                                    |
| Windmill; windpump; Water mill                 | Molino de viento; aeromotor; Molino de agua; Luz, faro |
| Light; lighthouse                              | Vertice geodésico; Punto tipo                          |
| Horizontal control point; Bench mark           | BMx431                                                 |
| Spot elevations in meters: Checked; Unchecked  | Comprobadas; No comprobadas                            |
| Sand; Lava                                     | Arena; Lava                                            |
| Woods, brushwoods; Scrub                       | Arboleda; Matorral                                     |
| Permanent plantation; Temporary                | Plantación permanente; Temporal                        |
| Marsh or swamp; Mangrove                       | Pantano; Manglar                                       |
| Rice; Salt evaporator                          | Arrozal; Salina                                        |
| Land subject to inundation; Dry stream or wash | Terreno sujeto a inundación; Río seco o aluvión        |
| Well; Spring; Intermittent stream              | Pozo; Manantial; Río intermitente                      |
| Intermittent lake; Navigable canal             | Laguna intermitente; Canal navegable                   |
| Pier; Reef                                     | Muelle; Arrecife                                       |
| Dams; Masonry; Earthen                         | Presas; de fábrica; de tierra                          |

|----------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Read large numbers labeling the VERTICAL grid line left of point and estimate tenth (100 meters) from grid line to point 12 3 | 1. Léase los números grandes correspondientes a la línea VERTICAL de la cuadrícula situada a la izquierda del punto y estime los décimos (100 metros) entre la línea mencionada y el punto 12 3 |
| 2. Read large numbers labeling the HORIZONTAL grid line below point and estimate tenth (100 meters) from line to point 45 6      | 2. Léase los números grandes correspondientes a la línea HORIZONTAL de la cuadrícula situada debajo del punto y estime los décimos (100 metros) entre la línea mencionada y el punto 45 6       |
| Example: 123456                                                                                                                  | Example: 123456                                                                                                                                                                                 |
| WHEN REPORTING OUTSIDE THE GRID ZONE DESIGNATION AREA, PREFIX THE GRID ZONE DESIGNATION.                                         | CUANDO SE HACE REFERENCIA FUERA DEL ÁREA DE LA ZONA DESIGNADA DE CUADRICULA ANTE, PÓNGASE A LA REFERENCIA ANTERIOR LA DESIGNACIÓN DE LA ZONA DE CUADRICULA.                                     |
| Example: 16PFL123456                                                                                                             | Example: 16PFL123456                                                                                                                                                                            |
